

Gary,

The time has come for you to renew your Sponsorship with NIEMOpen!

Last year, your sponsorship dollars and participation contributed to another successful year of promoting an interoperable digital world, and giving back to the Open Source community including:

- Transitioning NIEM to be an Open Source tool for Federal, State, Local, Tribal, Territorial, Commercial and International data interoperability
- Supporting the development of Open Source tooling for building data exchanges, to be released December 2023
- Improving community awareness about NIEMOpen
- Technology improvements that decouple XML from creating Message Exchange Packages permitting rendering exchanges in JSON and other languages, and advancing the overall utility of the NIEM model

This year, we hope to accomplish even more, including establishing Model Version 6.0 as an OASIS standard, enhancing the value of our training offerings through updates and credentialing, building a sustainable technical development team, and growing participation in the furtherance of NIEMOpen Project. However, we couldn't do it without the generous contributions of members just like you and Equivan's sponsorship!

Please join our organization for another successful year by renewing your membership today.

, You can submit your application and payment on the OASIS portal by clicking here:

<https://community.oasis-open.org/oasis/s/login/>.

If you have any questions about the renewal process, please don't hesitate to contact our Sponsorship director, Carol Geyer, or Irene Heller from our team about the logistics (both cc'd on this thread) or myself.

As always, we thank you for your continued dedication to our cause. We look forward to serving you for another year!
