

2019-2020 NIEM International Tiger Team Calendar (Draft)

Activities to Consider :

- Expend into NATO Data Framework engagement and evaluate new attribute inclusion
- Evaluate existing NIEM artifacts and consider language upgrade
- Evaluate existing NIEM.GOV content and assess LOE for update (convert US-centric terms and definitions) and update content to reflect international requirement
- Establish process to capture and implement internationalization requirements
- Continue with the Canadian English to French evaluation translation project
- Continue with the review and or identification of existing or new or emerging data sets, exchange models (IEPDs) or other attributes sources that may yield new or unique attributes within the existing NIEM model.
- Develop international scenario use case for NIEM
- **Other Emerging priorities from NBAC or NTAC**
