MEMORANDUM FOR SEE DISTRIBUTION

**Subject: DoD Adoption of the National Information Exchange Model (NIEM)
and establishment of the NIEM Military Operations Domain**

1. The 28 Mar 2013 DoD CIO memorandum, "Adoption of the National Information Exchange Model within the Department of Defense", states that the DoD will adopt the NIEM as the best suited option for standards-based data exchanges. This is a critical decision that will ultimately improve our information sharing capabilities within the Warfighting Mission Area, the Joint Information Environment, and the Mission Partner Environment.
2. In support of this decision and in coordination with the DoD CIO, the JS J6 is taking initial steps to establish a new Military Operations (MilOps) Domain within the NIEM construct. In combination with the existing NIEM Core and domains, the NIEM MilOps domain will support development of information exchange specifications across the full range of military operations.
3. Request all Combatant Commands, Services, Agencies and Joint Staff Directors with an interest in this activity provide an organizational point of contact, preferably O-6/GS-15, by 30 April 2013. The DoD CIO and the JS J6 will use these points of contact to share information and coordinate DoD participation in NIEM MilOps Domain establishment, management, and piloting activities.
4. JS J6 OPR for the NIEM MilOps Domain is the Data and Services Division within the Deputy Directorate for C2 Integration (DDC2I). Primary point of contact is Mr. Ryan Schultz, ryan.r.schultz.civ@mail.mil, (757) 203-5785.

MARK S. BOWMAN
Lieutenant General, USA
Director for Command, Control,
Communications, and
Computers/Cyber;
Chief Information Officer

DISTRIBUTION:

DoD Chief Information Officer, C4 and Information Infrastructure
Deputy Assistant Secretary of Defense for C3, Space and Spectrum
Vice Chief of Staff, US Army
Vice Chief of Naval Operations, US Navy
Vice Chief of Staff, US Air Force
Assistant Commandant, US Marine Corps
Vice Chief, National Guard Bureau
Deputy Commander, US Africa Command
Deputy Commander, US Central Command
Deputy Commander, US European Command
Deputy Commander, US Northern Command
Deputy Commander, US Pacific Command
Deputy Commander, US Southern Command
Deputy Commander, US Special Operations Command
Deputy Commander, US Strategic Command
Deputy Commander, US Transportation Command
Vice Director, National Security Agency
Vice Director, National Geospatial Intelligence Agency
Vice Director, Defense Information Systems Agency
Director, Joint Staff J-1
Director, Joint Staff J-2
Director, Joint Staff J-3
Director, Joint Staff J-4
Director, Joint Staff J-5
Director, Joint Staff J-7
Director, Joint Staff J-8

DIRECTOR, ADMINISTRATION AND MANAGEMENT
DIRECTOR, NET ASSESSMENT
DIRECTORS OF THE DEFENSE AGENCIES
DIRECTORS OF THE DOD FIELD ACTIVITIES

Subject: Adoption of the National Information Exchange Model within the Department of Defense

In order to comply with White House guidance on the adoption of reference information exchanges, DoD will adopt the National Information Exchange Model (NIEM) as the best suited option for standards-based data exchanges. This adoption will involve a series of phased implementations by Components/Programs using NIEM content, guidance, and tools in an integrated effort to transition current DoD data exchange standards, specifications, and policies to a NIEM-based approach. In addition, the DoD will work with the NIEM Program Management Office to create a Military Operations (MilOps) Domain as part of NIEM.

Given the Clinger-Cohen Act mandates and today's fiscal pressures, DoD must adopt a DoD-wide sustainable business model for information sharing that supports the DoD data strategy, the Joint Information Environment, the DoD Information Enterprise Architecture, and emerging government data sharing guidance. Adoption of NIEM offers potential efficiencies, long-term development cost savings, streamlined governance, and most importantly, improved information sharing across the DoD and with our mission partners.

To facilitate the transition to NIEM, the Office of the DoD Chief Information Officer will lead the development of a DoD Data Framework to include targeted guidance on governance and technical direction regarding NIEM adoption. Specifically, the DoD Data Framework will build upon the existing DoD data strategy and will provide principles, rules and additional guidance for managing data artifacts to improve information sharing. This framework will provide a foundation for how DoD views, manages, and shares its data. As part of the framework effort and to assist in shaping the DoD involvement in NIEM, Combatant Commands, Services and Agencies are encouraged to identify and conduct pilots and demonstrations.

DoD organizations shall first consider NIEM for their information sharing solutions when deciding which data exchange standards or specifications meet their mission and operational needs. Every effort shall be made to ensure that a rigorous analysis of NIEM be conducted as a part of this consideration.

The adoption of NIEM as a common standards-based data exchange may present challenges to some DoD stakeholders, particularly when viewed from the perspective of an individual program. In those situations where an organization's design goals and requirements are not fulfilled by NIEM, the organization shall provide justification why the use of NIEM is not feasible; exceptions may be granted by the DoD CIO. In such cases, an organization shall use an alternative or complementary data standard that is interoperable with NIEM.

This DoD transition to NIEM will incorporate the ongoing efforts of DoD Universal Core (UCore) and Command and Control (C2) Core. As of the date of this memo, the DoD CIO will no longer support the development of further enhancements to UCore and C2 Core as unique DoD data exchange models. The applicable data components in UCore and C2 Core will form the initial content in the NIEM Core and the NIEM MilOps Domain, respectively.

When published, the DoD implementing instruction, DoDI 8320.xx "Implementing the Sharing of Data, Information, and Information Technology (IT) Services in the Department of Defense" will incorporate policy and guidance on DoD adoption of NIEM. The point of contact for this matter is Mr. Bill Barlow at email: William.Barlow@osd.mil, 571-372-4646.
