

0:1:33.272 --> 0:1:34.592

Kamran Atri NBAC Co-Chair
Hi, Steven.

0:1:35.272 --> 0:1:36.432

Kamran Atri NBAC Co-Chair
My check please.

0:1:39.792 --> 0:1:40.732

Sullivan, Stephen M CTR JS J6 (USA)
Mountain clear camera.

0:1:41.692 --> 0:1:42.452

Kamran Atri NBAC Co-Chair
Thank you so much.

0:1:44.362 --> 0:1:45.482

Kamran Atri NBAC Co-Chair
Alima thanks for joining.

0:1:46.852 --> 0:1:48.572

Harner, Elena N CTR USARMY HQDA DFBA (USA)
Yep, of course. Good afternoon.

0:1:49.232 --> 0:1:50.32

Kamran Atri NBAC Co-Chair
Good afternoon, my.

0:4:22.92 --> 0:4:22.252

Kamran Atri NBAC Co-Chair
OK.

0:5:3.442 --> 0:5:4.882

Kamran Atri NBAC Co-Chair
Good afternoon, everyone.

0:5:4.882 --> 0:5:7.882

Kamran Atri NBAC Co-Chair
We are just gonna wait. I would say about 3 minutes.

0:5:8.282 --> 0:5:10.762

Kamran Atri NBAC Co-Chair

So others can join. So bring it started.

0:5:11.642 --> 0:5:12.2

Kamran Atri NBAC Co-Chair

Thank you.

0:5:12.2 --> 0:5:12.482

Kamran Atri NBAC Co-Chair

Please hold.

0:5:24.482 --> 0:5:29.722

Kamran Atri NBAC Co-Chair

Thomas is leaving is saying is Thomas sorry Steven Thomas is saying he's not able to join.

0:5:31.602 --> 0:5:32.842

Sullivan, Stephen M CTR JS J6 (USA)

Yeah, I see.

0:5:31.622 --> 0:5:32.902

Kamran Atri NBAC Co-Chair

But it's time to do anything.

0:5:34.292 --> 0:5:42.212

Sullivan, Stephen M CTR JS J6 (USA)

Yeah, I see him. And I admitted him, but it seems like his connection isn't permitting him to enter.

0:5:43.292 --> 0:5:44.172

Kamran Atri NBAC Co-Chair

What y'all tell them?

0:6:2.322 --> 0:6:3.922

Kamran Atri NBAC Co-Chair

Good afternoon, Andrew. Thank you for joining.

0:6:5.212 --> 0:6:7.452

Andrew Scott- ICLN PM

Hey. Hey, Cameron. Thanks.

0:6:7.162 --> 0:6:7.642

Kamran Atri NBAC Co-Chair

Sir.

0:6:10.452 --> 0:6:10.772

Andrew Scott- ICLN PM

I think.

0:6:12.532 --> 0:6:12.972

Andrew Scott- ICLN PM

Spread on.

0:6:12.972 --> 0:6:15.732

Andrew Scott- ICLN PM

Yeah. Brett, for she's gonna be.

0:6:17.572 --> 0:6:19.52

Andrew Scott- ICLN PM

Is the is the director of Icln.

0:6:21.762 --> 0:6:23.962

Andrew Scott- ICLN PM

So he will likely.

0:6:23.92 --> 0:6:24.532

Kamran Atri NBAC Co-Chair

Good afternoon, everyone.

0:6:25.212 --> 0:6:26.332

Kamran Atri NBAC Co-Chair

We are gonna start.

0:6:26.412 --> 0:6:28.252

Kamran Atri NBAC Co-Chair

I would say 3 minutes after.

0:6:28.252 --> 0:6:30.492

Kamran Atri NBAC Co-Chair

So another minute or so others can join.

0:6:38.72 --> 0:6:40.592

Kamran Atri NBAC Co-Chair

Hey Manzi, do you know if Adam is going to join?

0:6:42.682 --> 0:6:43.522

Vamsi - DHS OBIM

I'm not sure.

0:6:47.152 --> 0:6:48.192

Vamsi - DHS OBIM

He joins us.

0:6:47.452 --> 0:6:49.132

Kamran Atri NBAC Co-Chair

Let me let me text.

0:7:14.522 --> 0:7:14.882

Kamran Atri NBAC Co-Chair

OK.

0:7:14.882 --> 0:7:15.682

Kamran Atri NBAC Co-Chair

I just text Adam.

0:7:32.22 --> 0:7:36.702

Kamran Atri NBAC Co-Chair

OK, Andrew, I'll give you a room to bring that up to everyone's attention.

0:7:37.842 --> 0:7:38.242

Andrew Scott- ICLN PM

OK.

0:7:38.322 --> 0:7:39.202

Kamran Atri NBAC Co-Chair

Let me just start it.

0:7:38.322 --> 0:7:38.842

Andrew Scott- ICLN PM

Thank you.

0:8:16.22 --> 0:8:16.582

Kamran Atri NBAC Co-Chair

OK.

0:8:18.12 --> 0:8:20.212

Kamran Atri NBAC Co-Chair

Adam is finishing up another meeting and join us shortly.

0:8:20.412 --> 0:8:24.12

Kamran Atri NBAC Co-Chair

He's the chair of the biometric subcommittee.

0:8:24.732 --> 0:8:28.92

Kamran Atri NBAC Co-Chair

All right. I think we should get started.

0:8:28.92 --> 0:8:29.452

Kamran Atri NBAC Co-Chair

I don't want to keep people online here.

0:8:29.572 --> 0:8:30.772

Kamran Atri NBAC Co-Chair

Good afternoon. I'm Cameron.

0:8:30.772 --> 0:8:35.692

Kamran Atri NBAC Co-Chair

I'm joined by Thomas as well as Paul, the two Co chairs.

0:8:36.252 --> 0:8:42.252

Kamran Atri NBAC Co-Chair

I'm also accompanied by Steven, who does magic for us every day day in and day out so.

0:8:43.172 --> 0:8:43.492

Kamran Atri NBAC Co-Chair

Appreciate you.

0:8:44.962 --> 0:8:46.762

Kamran Atri NBAC Co-Chair

I appreciate you giving us your time.

0:8:47.362 --> 0:8:49.402

Kamran Atri NBAC Co-Chair

We have a few things you wanna bring to your attention.

0:8:49.402 --> 0:8:51.162

Kamran Atri NBAC Co-Chair

So first and foremost.

0:8:52.652 --> 0:9:1.172

Kamran Atri NBAC Co-Chair

The the leads as well as some of the subcommittee's chairs joined a 2 day face to face last week, Wednesday and Thursday.

0:9:2.892 --> 0:9:3.772

Kamran Atri NBAC Co-Chair

We had quite a few.

0:9:5.412 --> 0:9:6.692

Kamran Atri NBAC Co-Chair

Awesome topics we went through.

0:9:8.572 --> 0:9:14.52

Kamran Atri NBAC Co-Chair

We identified several action items. I believe Nemo is gonna walk you through.

0:9:14.322 --> 0:9:15.882

Kamran Atri NBAC Co-Chair

Steven is going to walk you through that.

0:9:16.722 --> 0:9:17.762

Kamran Atri NBAC Co-Chair

Some of them at least.

0:9:19.292 --> 0:9:21.212

Kamran Atri NBAC Co-Chair

But overall, I think it was very positive.

0:9:21.412 --> 0:9:26.492

Kamran Atri NBAC Co-Chair

We found quite a few opportunity to move forward.

0:9:26.492 --> 0:9:33.52

Kamran Atri NBAC Co-Chair

We found we identified quite a few other working group that could join us.

0:9:33.732 --> 0:9:35.172

Kamran Atri NBAC Co-Chair

I think overall was great.

0:9:36.812 --> 0:9:44.412

Kamran Atri NBAC Co-Chair

We spent the last day trying to find out why Thomas from Canada has so many days off and vacation, and that was the main topic.

0:9:44.842 --> 0:9:49.122

Kamran Atri NBAC Co-Chair

On the last day and why he spends 95% of his time in Florida.

0:9:47.212 --> 0:9:48.92

Thomas Krul

How is it Oh dear.

0:9:50.62 --> 0:9:50.502

Kamran Atri NBAC Co-Chair

What?

0:9:53.402 --> 0:9:54.562

Kamran Atri NBAC Co-Chair

But overall it was great.

0:9:54.962 --> 0:9:58.82

Kamran Atri NBAC Co-Chair

That's the main thing I want to bring to your attention.

0:9:58.82 --> 0:10:1.482

Kamran Atri NBAC Co-Chair

We do have a PGB coming up end of almost towards the end of the May.

0:10:2.762 --> 0:10:9.602

Kamran Atri NBAC Co-Chair

They are on boarding a new subcommittee today, which we're going to talk about that, you know, shortly.

0:10:11.202 --> 0:10:11.922

Kamran Atri NBAC Co-Chair

They are on today.

0:10:11.962 --> 0:10:17.122

Kamran Atri NBAC Co-Chair

It's the forensic subcommittee that we are kind of putting together.

0:10:18.802 --> 0:10:19.282

Kamran Atri NBAC Co-Chair

For execution.

0:10:21.2 --> 0:10:28.962

Kamran Atri NBAC Co-Chair

Also news is that analytic laboratory, which is run by IcInt, is already on board.

0:10:28.962 --> 0:10:32.122

Kamran Atri NBAC Co-Chair

They did an awesome job putting together the governance document.

0:10:32.552 --> 0:10:34.512

Kamran Atri NBAC Co-Chair

She's still going to review by Nemo.

0:10:36.522 --> 0:10:46.522

Kamran Atri NBAC Co-Chair

They have provided the content for the name Open website. It was reviewed and put together by Audrey and Chandra.

0:10:46.522 --> 0:10:47.922

Kamran Atri NBAC Co-Chair

Thank you so much for your help.

0:10:49.682 --> 0:10:54.82

Kamran Atri NBAC Co-Chair

And it looks like we are moving forward with that whole activity.

0:10:55.722 --> 0:11:1.722

Kamran Atri NBAC Co-Chair

The next fund for that activity would be working through their attribute list, which is what is happening currently.

0:11:3.62 --> 0:11:5.422

Kamran Atri NBAC Co-Chair

I do have Andrew online.

0:11:5.422 --> 0:11:8.382

Kamran Atri NBAC Co-Chair

Who is the chair of the subcommittee?

0:11:8.382 --> 0:11:12.142

Kamran Atri NBAC Co-Chair

I think Andrew wants to make an announcement. Andrew, please.

0:11:13.652 --> 0:11:14.692

Andrew Scott- ICLN PM

Thanks, Cameron. Yeah.

0:11:16.642 --> 0:11:17.82

Andrew Scott- ICLN PM

We have.

0:11:17.82 --> 0:11:20.42

Andrew Scott- ICLN PM

We've brought on Brett Forshey's Public Health service officer.

0:11:21.522 --> 0:11:30.722

Andrew Scott- ICLN PM

To be the new ICLN director, so he will be taking over ownership of the Analytical Laboratory Subcommittee and domain moving forward.

0:11:32.362 --> 0:11:34.202

Andrew Scott- ICLN PM

As it stands now, I will remain engaged.

0:11:35.962 --> 0:11:42.602

Andrew Scott- ICLN PM

As the transition moves forward as well as post transition with participation in various working groups.

0:11:43.32 --> 0:11:46.352

Andrew Scott- ICLN PM

And in a in a subordinate capacity.

0:11:46.912 --> 0:11:48.672

Andrew Scott- ICLN PM

So that's what it looks like for us going forward.

0:11:48.672 --> 0:11:49.872

Andrew Scott- ICLN PM

Brett, you want to say a couple words?

0:11:48.802 --> 0:11:49.122

Kamran Atri NBAC Co-Chair

All right.

0:11:51.952 --> 0:11:54.632

Brett Forshey - DHS

Thanks for the introduction and look forward to work with everyone.

0:11:55.822 --> 0:11:58.22

Kamran Atri NBAC Co-Chair

Yeah. Nice to meet you, Brad.

0:11:59.482 --> 0:12:0.122

Kamran Atri NBAC Co-Chair

Welcome to the family.

0:12:1.722 --> 0:12:14.82

Kamran Atri NBAC Co-Chair

As always, Andrew would tell you. I'm. I'm I stand by should did any updates or any kind

of catching up that you think you may need, I'll be more than happy to walk you through whatever you may need from your side.

0:12:15.842 --> 0:12:26.882

Kamran Atri NBAC Co-Chair

We, we being the DHS Standards Office, have kind of raised our hand kind of telling Andrew that we were more than happy to help out.

0:12:27.842 --> 0:12:32.882

Kamran Atri NBAC Co-Chair

The icln structures for onboarding into the Oasis standard.

0:12:33.322 --> 0:12:34.682

Kamran Atri NBAC Co-Chair

Oasis name open standard.

0:12:34.682 --> 0:12:39.282

Kamran Atri NBAC Co-Chair

So should you have any questions or anything you want to, you know, ask.

0:12:39.322 --> 0:12:40.562

Kamran Atri NBAC Co-Chair

Just reach out to me.

0:12:42.742 --> 0:13:0.362

Paul Wormeli

And anyway, anyway that we can be helpful to you, Brett and understanding the past and and notions about what name opens about or how it how it's come to be and what we're planning to to talk about in the future, we'd be happy to have those conversations anytime.

0:13:0.382 --> 0:13:5.462

Paul Wormeli

You want between Cameron and Thomas and I and and Matt and Catherine as well, of course.

0:13:6.692 --> 0:13:7.492

Kamran Atri NBAC Co-Chair

Thanks Paul.

0:13:8.52 --> 0:13:8.692

Kamran Atri NBAC Co-Chair

All right.

0:13:8.182 --> 0:13:8.702

Brett Forshey - DHS

Yeah. Thanks.

0:13:8.702 --> 0:13:9.622

Brett Forshey - DHS

I really appreciate that Yep.

0:13:11.2 --> 0:13:11.282

Kamran Atri NBAC Co-Chair

Yes, Sir.

0:13:11.282 --> 0:13:11.442

Kamran Atri NBAC Co-Chair

All right.

0:13:11.602 --> 0:13:12.842

Kamran Atri NBAC Co-Chair

So that was open remark.

0:13:12.842 --> 0:13:17.202

Kamran Atri NBAC Co-Chair

I don't know if Paul or Thomas want to add anything before I pass it back on to Steven.

0:13:19.542 --> 0:13:23.982

Thomas Krul

No, just I won't be on vacation for another while yet. Don't worry.

0:13:19.742 --> 0:13:20.622

Paul Wormeli

I'm happy to.

0:13:21.822 --> 0:13:22.422

Kamran Atri NBAC Co-Chair

OK.

0:13:24.972 --> 0:13:27.812

Kamran Atri NBAC Co-Chair

All right, Stephen, please.

0:13:28.462 --> 0:13:28.822

Sullivan, Stephen M CTR JS J6 (USA)

Thank you.

0:13:32.542 --> 0:13:34.902

Sullivan, Stephen M CTR JS J6 (USA)

All right, I have a few items.

0:13:36.722 --> 0:13:41.522

Sullivan, Stephen M CTR JS J6 (USA)

To provide you today, Catherine can't be with us right now.

0:13:41.842 --> 0:14:1.282

Sullivan, Stephen M CTR JS J6 (USA)

So as Cameron mentioned last week on Wednesday and Thursday, we had we met at I just headquarters in Ashburn, VA and it the participants were the Co chairs of the different technical steering committees, of which there are three.

0:14:1.712 --> 0:14:10.632

Sullivan, Stephen M CTR JS J6 (USA)

And back in tech and knee management office and we had a pretty full schedule, some some of the items.

0:14:12.42 --> 0:14:24.122

Sullivan, Stephen M CTR JS J6 (USA)

That we discussed and there's a series of action items and I'm putting together a working group to address some of those. But one of the one of the primary.

0:14:25.722 --> 0:14:30.322

Sullivan, Stephen M CTR JS J6 (USA)

Items we discussed was the reduction in the Department of Defense footprint.

0:14:30.322 --> 0:14:31.82

Sullivan, Stephen M CTR JS J6 (USA)

I mean, we currently.

0:14:31.232 --> 0:14:34.712

Sullivan, Stephen M CTR JS J6 (USA)

We have representatives.

0:14:36.322 --> 0:14:50.962

Sullivan, Stephen M CTR JS J6 (USA)

You know, Catherine is the chair. We have people in the management office, people that support both the Antech and the N bacc. And what we want to do is look, look going forward.

0:14:52.482 --> 0:14:58.482

Sullivan, Stephen M CTR JS J6 (USA)

How to incorporate greater representation from other organizations within the NEO Open?

0:15:0.242 --> 0:15:0.362

Sullivan, Stephen M CTR JS J6 (USA)

And.

0:15:0.872 --> 0:15:18.752

Sullivan, Stephen M CTR JS J6 (USA)

By and large, the we're gonna stand up working group to consider alternatives and present those to the PGB, one of the main topics that we discussed was how to increase revenue available to NIM Open.

0:15:20.242 --> 0:15:23.42

Sullivan, Stephen M CTR JS J6 (USA)

By diversifying our funding sources.

0:15:24.842 --> 0:15:25.922

Sullivan, Stephen M CTR JS J6 (USA)

Historically, the.

0:15:27.962 --> 0:15:30.162

Sullivan, Stephen M CTR JS J6 (USA)

Neem has been funded principally.

0:15:31.882 --> 0:15:32.202

Sullivan, Stephen M CTR JS J6 (USA)

Over the.

0:15:32.392 --> 0:15:35.472

Sullivan, Stephen M CTR JS J6 (USA)

Period of almost 20 years by.

0:15:37.482 --> 0:15:57.482

Sullivan, Stephen M CTR JS J6 (USA)

Three to four major agencies, DoD, DHS, HHS, and Justice, and what we're trying to do is encourage more sponsors so that we can ensure sustainability for Nam Open as it continues into the future.

0:15:43.792 --> 0:15:43.912

Paul Wormeli

Hey.

0:15:59.312 --> 0:16:0.632

Sullivan, Stephen M CTR JS J6 (USA)

To that end.

0:16:2.352 --> 0:16:12.672

Sullivan, Stephen M CTR JS J6 (USA)

Near the end of the meeting, we identified 13 or 14 prospective new sponsors that would bring, oh at least about 300 K ish.

0:16:15.522 --> 0:16:20.162

Sullivan, Stephen M CTR JS J6 (USA)

Into into the organization and why that is important is we use that to.

0:16:21.882 --> 0:16:27.562

Sullivan, Stephen M CTR JS J6 (USA)

Buy resources such as the learning management system that we're going to introduce in May.

0:16:29.242 --> 0:16:32.42

Sullivan, Stephen M CTR JS J6 (USA)

And also use that to hire contract support.

0:16:32.902 --> 0:16:36.622

Sullivan, Stephen M CTR JS J6 (USA)

For model development and architecture development.

0:16:37.792 --> 0:16:50.792

Sullivan, Stephen M CTR JS J6 (USA)

We're also looking at ways to monetize some of the services that need them open hands and to pursue possibly congressional funding.

0:16:52.242 --> 0:16:53.202

Sullivan, Stephen M CTR JS J6 (USA)

Maybe a budget line item?

0:16:54.842 --> 0:16:59.362

Sullivan, Stephen M CTR JS J6 (USA)

To sustain need more reliably in the future.

0:16:59.602 --> 0:17:1.482

Sullivan, Stephen M CTR JS J6 (USA)

So all of those things are.

0:17:3.242 --> 0:17:6.602

Sullivan, Stephen M CTR JS J6 (USA)

Active action items that we'll be working on and we'll provide.

0:17:6.912 --> 0:17:18.832

Sullivan, Stephen M CTR JS J6 (USA)

Periodic updates on progress. We also looked at ways to distribute and resource what is traditionally been referred to as lead developer tasks.

0:17:19.112 --> 0:17:31.472

Sullivan, Stephen M CTR JS J6 (USA)

First step was we identified some of the current tasks that have been supported by the lead developer, and there's others also that the working group will come come to terms with.

0:17:32.242 --> 0:17:36.962

Sullivan, Stephen M CTR JS J6 (USA)

And then we want to revisit the current roles of our Technical Steering committee.

0:17:37.912 --> 0:17:39.192

Sullivan, Stephen M CTR JS J6 (USA)

To figure out.

0:17:40.682 --> 0:17:46.642

Sullivan, Stephen M CTR JS J6 (USA)

A way to more efficiently handle some of the technical details that need to be managed.

0:17:48.362 --> 0:17:58.682

Sullivan, Stephen M CTR JS J6 (USA)

I have a typo in here a couple places that the next PGB meeting is the last Thursday of the of May, which is the 29th of May.

0:17:58.882 --> 0:18:3.122

Sullivan, Stephen M CTR JS J6 (USA)

So I'll put out a notice to everybody next week just to remind them of that.

0:18:3.442 --> 0:18:6.82

Sullivan, Stephen M CTR JS J6 (USA)

Plus, if you're a member of the PGB.

0:18:8.712 --> 0:18:13.792

Sullivan, Stephen M CTR JS J6 (USA)

Mailing list your get a calendar reminder about every other week or so.

0:18:15.362 --> 0:18:29.2

Sullivan, Stephen M CTR JS J6 (USA)

We're also going to try to pursue some bridge funding from current the General Fund of Neem open, and we'll make a motion to that effect to the PGB again 29 May.

0:18:30.642 --> 0:18:36.642

Sullivan, Stephen M CTR JS J6 (USA)

At the end of May, and we anticipate that that motion will pass.

0:18:41.562 --> 0:18:47.682

Sullivan, Stephen M CTR JS J6 (USA)

So in general, we established kind of a a list of priorities.

0:18:47.682 --> 0:18:55.642

Sullivan, Stephen M CTR JS J6 (USA)

One was to decrease the DoD footprint and open up the footprint of industry for neem open.

0:18:55.642 --> 0:18:58.122

Sullivan, Stephen M CTR JS J6 (USA)

We think that's a key to the sustainability.

0:19:2.352 --> 0:19:3.712

Sullivan, Stephen M CTR JS J6 (USA)

We approved.

0:19:5.402 --> 0:19:8.682

Sullivan, Stephen M CTR JS J6 (USA)

NDA. The naming and design rules which is.

0:19:10.322 --> 0:19:19.642

Sullivan, Stephen M CTR JS J6 (USA)

Project Specification Draft 01 that was about 2 1/2 weeks ago and it's being uploaded to the Neem Open.

0:19:21.362 --> 0:19:30.562

Sullivan, Stephen M CTR JS J6 (USA)

Library as we speak and as of yesterday we passed model version 6.0 which is the new.

0:19:31.592 --> 0:19:33.632

Sullivan, Stephen M CTR JS J6 (USA)

Model version for name open.

0:19:34.912 --> 0:19:36.312

Sullivan, Stephen M CTR JS J6 (USA)

One of the keys.

0:19:37.592 --> 0:19:46.472

Sullivan, Stephen M CTR JS J6 (USA)

For us is to finish up the tooling which supports model version 6.0 and those would be the.

0:19:47.922 --> 0:19:56.562

Sullivan, Stephen M CTR JS J6 (USA)

One would be the common model format tool that Doctor Renner is working on and has been for a while. API 2.0.

0:19:58.762 --> 0:20:6.642

Sullivan, Stephen M CTR JS J6 (USA)

Plus model management tasks that we're going to try to fund with the bridge funding I described earlier and the message exchange.

0:20:6.712 --> 0:20:8.872

Sullivan, Stephen M CTR JS J6 (USA)

Change package tool to.

0:20:10.282 --> 0:20:14.442

Sullivan, Stephen M CTR JS J6 (USA)

Update the compatibility with API 2.0 and model version 6.0.

0:20:16.872 --> 0:20:21.952

Sullivan, Stephen M CTR JS J6 (USA)

As I said, we during the meeting we identified about 13 near term.

0:20:23.442 --> 0:20:25.602

Sullivan, Stephen M CTR JS J6 (USA)

Sponsorship and funding.

0:20:27.162 --> 0:20:31.562

Sullivan, Stephen M CTR JS J6 (USA)

Organizations to support tech to support, and we'll work on those.

0:20:33.282 --> 0:20:35.122

Sullivan, Stephen M CTR JS J6 (USA)

And we're going to develop.

0:20:36.762 --> 0:20:41.682

Sullivan, Stephen M CTR JS J6 (USA)

Alternatives or courses of action for the NTACC and NMO to reduce.

0:20:43.602 --> 0:20:49.282

Sullivan, Stephen M CTR JS J6 (USA)

DoD footprint and also to ameliorate some of the lead developer task.

0:20:50.362 --> 0:20:55.602

Sullivan, Stephen M CTR JS J6 (USA)

One of the other things that we wanna do is to highlight.

0:20:57.82 --> 0:21:3.682

Sullivan, Stephen M CTR JS J6 (USA)

What it's gonna look like for the neem architecture in the future and identify so that we can.

0:21:5.362 --> 0:21:18.402

Sullivan, Stephen M CTR JS J6 (USA)

Talk to our industry folks about why it's important and what the benefits are and over the course of the last year, there have been many. As I just said, we've had two two new specification.

0:21:18.992 --> 0:21:32.232

Sullivan, Stephen M CTR JS J6 (USA)

Releases and the next step after that is to have model version 6.0 become an actual Oasis standard and then possibly a standard with other organizations.

0:21:32.232 --> 0:21:34.352

Sullivan, Stephen M CTR JS J6 (USA)

So that's kind of a brief summary.

0:21:35.842 --> 0:21:48.882

Sullivan, Stephen M CTR JS J6 (USA)

All, if you look on the end back admin repo you'll see the folder for the 16th and 17th of April on all the materials, including some of the follow up information.

0:21:49.792 --> 0:21:51.832

Sullivan, Stephen M CTR JS J6 (USA)

Is available to you there.

0:21:57.542 --> 0:22:4.462

Sullivan, Stephen M CTR JS J6 (USA)

All other things that we'll discuss a little bit later is on the 28th of May.

0:22:4.502 --> 0:22:6.342

Sullivan, Stephen M CTR JS J6 (USA)

Paul were Mellie's going to.

0:22:8.162 --> 0:22:12.882

Sullivan, Stephen M CTR JS J6 (USA)

Present to CCISDA out at Lake Tahoe.

0:22:12.882 --> 0:22:18.842

Sullivan, Stephen M CTR JS J6 (USA)

Lucky man, we have a webinar scheduled for the 22nd of May.

0:22:19.282 --> 0:22:26.602

Sullivan, Stephen M CTR JS J6 (USA)

It's gonna highlight some of the new developments that we have and again the next PGB meeting and here is the.

0:22:26.792 --> 0:22:29.712

Sullivan, Stephen M CTR JS J6 (USA)

Link for it and you're welcome to attend.

0:22:29.712 --> 0:22:40.792

Sullivan, Stephen M CTR JS J6 (USA)

These are the current sponsors that sit on the project. Governing Board is the 29th of May, from 2:00 to 4:00 PM Eastern Daylight Time and.

0:22:42.242 --> 0:22:54.162

Sullivan, Stephen M CTR JS J6 (USA)

We have what we're referring to as a name reveal in October, which will be 1/2 a day session at the National Press Club, and the details the agenda that will be coming out the next month or so.

0:22:55.632 --> 0:22:56.232

Sullivan, Stephen M CTR JS J6 (USA)

So.

0:22:58.232 --> 0:23:12.592

Sullivan, Stephen M CTR JS J6 (USA)

Again, these are the two specifications that just been approved and these links will take you to where the current documents are and also where we'll finally reside within Oasis.

0:23:13.112 --> 0:23:18.32

Sullivan, Stephen M CTR JS J6 (USA)

So I think what I'm gonna do is ask if there are any questions at this point.

0:23:22.32 --> 0:23:23.632

Brad Bolliger (EY)

Oh, super quickly, Steve.

0:23:23.42 --> 0:23:23.202

Sullivan, Stephen M CTR JS J6 (USA)

Yeah.

0:23:25.122 --> 0:23:32.522

Brad Bolliger (EY)

Did we mention the new workgroup to discuss the governance model to decimate as one of the action items coming out of the?

0:23:34.292 --> 0:23:35.412

Sullivan, Stephen M CTR JS J6 (USA)

Yes, we did.

0:23:35.412 --> 0:23:58.772

Sullivan, Stephen M CTR JS J6 (USA)

And I I sent an e-mail out today to the Co chairs of all three TSC, asking them to talk to the folks in each of their committees. And if anyone is interested in participating in that working group, just send me an e-mail and.

0:23:59.682 --> 0:24:3.762

Sullivan, Stephen M CTR JS J6 (USA)

We'll we'll be happy to. Happy to have you join.

0:24:4.72 --> 0:24:13.512

Sullivan, Stephen M CTR JS J6 (USA)

I also asked for some perspective calendar dates for people already to see where you know how we can align people's schedules.

0:24:13.552 --> 0:24:18.232

Sullivan, Stephen M CTR JS J6 (USA)

So more information should be coming out on this probably sometime next week.

0:24:20.692 --> 0:24:21.692

Brad Bolliger (EY)

Awesome. Thank you.

0:24:22.562 --> 0:24:24.882

Sullivan, Stephen M CTR JS J6 (USA)

So what I'd like to do now go ahead.

0:24:27.982 --> 0:24:30.62

Sullivan, Stephen M CTR JS J6 (USA)

What I like to do now is.

0:24:31.642 --> 0:24:35.882

Sullivan, Stephen M CTR JS J6 (USA)

Ask Cameron to talk a little bit about forensics.

0:24:35.882 --> 0:24:39.802

Sullivan, Stephen M CTR JS J6 (USA)

Domain and I'll bring up that set of slides here in a second.

0:24:39.712 --> 0:24:41.112

Kamran Atri NBAC Co-Chair

Thank you, Steven.

0:24:42.392 --> 0:24:43.952

Kamran Atri NBAC Co-Chair

So today, let me see.

0:24:43.952 --> 0:24:51.32

Kamran Atri NBAC Co-Chair

Today I'm accompanied by Alina, who will be checking charge of some of the slides.

0:24:51.632 --> 0:24:59.152

Kamran Atri NBAC Co-Chair

She is part of the DoD Deva office, reporting to Ryan Tripoli.

0:25:1.632 --> 0:25:4.512

Kamran Atri NBAC Co-Chair

I mean, I don't think Brian is, is Brian on.

0:25:6.362 --> 0:25:8.42

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Yeah, I think Brian's on today.

0:25:7.732 --> 0:25:8.252

Kamran Atri NBAC Co-Chair

Oh, I see.

0:25:8.252 --> 0:25:10.92

Kamran Atri NBAC Co-Chair

I see if I saw it. Brian's out with you.

0:25:8.492 --> 0:25:10.52

Harrig, Brian William CTR (USA)

I am on as well, Cameron.

0:25:10.92 --> 0:25:11.372

Kamran Atri NBAC Co-Chair

I see. Sorry Brian.

0:25:11.912 --> 0:25:12.232

Harrig, Brian William CTR (USA)

It's OK.

0:25:12.812 --> 0:25:13.492

Kamran Atri NBAC Co-Chair

OK.

0:25:13.892 --> 0:25:15.212

Kamran Atri NBAC Co-Chair

So let's get started.

0:25:15.212 --> 0:25:18.892

Kamran Atri NBAC Co-Chair

So first and foremost, I've already restarted Neo.

0:25:21.522 --> 0:25:22.802

Kamran Atri NBAC Co-Chair

I have a concern with.

0:25:25.42 --> 0:25:34.722

Kamran Atri NBAC Co-Chair

Kind of a logo that we have there for intelligence. Looks like magnifying glass. I requested that to be changed intelligently.

0:25:34.722 --> 0:25:36.162

Kamran Atri NBAC Co-Chair

Shouldn't have magnifying glass.

0:25:37.962 --> 0:25:41.802

Kamran Atri NBAC Co-Chair

I think that actually should belong to forensic so.

0:25:42.192 --> 0:25:53.272

Kamran Atri NBAC Co-Chair

Well, behind the scene, we'll work it out through the Nemo and anybody else involved to see if we can swap the actual logo out to forensic.

0:25:53.312 --> 0:25:56.992

Kamran Atri NBAC Co-Chair

Is is my highly recommended suggestion.

0:25:57.752 --> 0:26:4.432

Kamran Atri NBAC Co-Chair

So. So what we're gonna do is we're gonna take a maybe less than 10 minutes of your time, walk you through quickly.

0:26:5.882 --> 0:26:9.962

Kamran Atri NBAC Co-Chair

Why everything forensic should be a a new name subcommittee.

0:26:11.832 --> 0:26:13.632

Kamran Atri NBAC Co-Chair

That I have a lot to offer.

0:26:13.672 --> 0:26:20.112

Kamran Atri NBAC Co-Chair

A lot, as you're about to see, and there actually I would say 80% on the way.

0:26:21.602 --> 0:26:28.682

Kamran Atri NBAC Co-Chair

To actually initiate the entire activity, it's gonna be a large group, similar to biometric.

0:26:30.562 --> 0:26:32.682

Kamran Atri NBAC Co-Chair

Where DHS will be involved as a Co chair.

0:26:32.682 --> 0:26:36.482

Kamran Atri NBAC Co-Chair

We're still working through that activity.

0:26:36.922 --> 0:26:40.82

Kamran Atri NBAC Co-Chair

They've identified a couple of names. We just need to run through the.

0:26:41.62 --> 0:26:46.782

Kamran Atri NBAC Co-Chair

Process we are going to identify someone at the FBI site.

0:26:48.432 --> 0:26:51.432

Kamran Atri NBAC Co-Chair

For this activity and we have already identified.

0:26:53.82 --> 0:26:58.242

Kamran Atri NBAC Co-Chair

A nest, as the Ombudsman for when we have issues and need to resolve it.

0:26:58.242 --> 0:27:1.322

Kamran Atri NBAC Co-Chair

So that's kind of the, you know, game plan.

0:27:2.882 --> 0:27:5.642

Kamran Atri NBAC Co-Chair

I'll let Elena take over the slide.

0:27:5.642 --> 0:27:6.962

Kamran Atri NBAC Co-Chair

Can we go to Slide 2 please?

0:27:7.522 --> 0:27:11.762

Kamran Atri NBAC Co-Chair

So she can kind of walk you through what that what looks like Alina, please.

0:27:12.722 --> 0:27:14.962

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Yeah. Thanks for the introduction, Cameron.

0:27:14.962 --> 0:27:33.972

Harner, Elena N CTR USARMY HQDA DFBA (USA)

So just to start off with a little bit about Diffa, where the defense forensics and biometrics agency and we are a direct reporting unit within the Army, we report to the Provost Marshall General and Act on behalf of the Secretary of the Army to carry out the D.

0:27:33.962 --> 0:27:39.682

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Executive agent responsibilities for biometrics and most forensic disciplines.

0:27:40.402 --> 0:27:42.522

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Our mission is to lead consolidate.

0:27:42.992 --> 0:28:6.522

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And coordinate forensic and biometric activities and operations for the DoD and this is consistent and aligns with two different DoD directives, one of which establishes policy and responsibilities for the forensics enterprise and the other which does the same for biometrics within the DoD. Defbi also coordinates data sharing.

0:28:6.752 --> 0:28:12.672

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Between the US government agencies and foreign nations, as well as other executive duties.

0:28:13.562 --> 0:28:24.442

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And you can see in the org chart here that Diffa reports directly to the PMG and then within the DIFF programs division toward the bottom left.

0:28:24.602 --> 0:28:26.802

Harner, Elena N CTR USARMY HQDA DFBA (USA)

That's where the standards branch lies.

0:28:28.522 --> 0:28:29.202

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Next slide.

0:28:30.332 --> 0:28:32.772

Kamran Atri NBAC Co-Chair

By the way, if anybody has any questions, just raise your hand.

0:28:32.772 --> 0:28:36.132

Kamran Atri NBAC Co-Chair

This is essentially for you all to be aware.

0:28:37.72 --> 0:28:37.832

Kamran Atri NBAC Co-Chair

Sign up please.

0:28:38.842 --> 0:28:39.682

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Thank you.

0:28:39.442 --> 0:28:39.722

Kamran Atri NBAC Co-Chair

Go ahead.

0:28:40.712 --> 0:28:48.872

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Yeah. So the DIFFUS standards branch has five main functions. The 1st is to advocate for DoD interests.

0:28:49.392 --> 0:28:51.472

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Facilitate formal adoption.

0:28:51.472 --> 0:29:1.632

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Provide consistent implementation guidance and accelerate forensic and biometric standards development both at the national and international level.

0:29:1.872 --> 0:29:6.272

Harner, Elena N CTR USARMY HQDA DFBA (USA)

We also champion forensic and biometric standards development across.

0:29:7.2 --> 0:29:11.722

Harner, Elena N CTR USARMY HQDA DFBA (USA)

The US government and international levels to develop revised and give guidance.

0:29:12.512 --> 0:29:14.712

Harner, Elena N CTR USARMY HQDA DFBA (USA)

On standards that will be used by the DoD.

0:29:15.672 --> 0:29:26.432

Harner, Elena N CTR USARMY HQDA DFBA (USA)

So we're active members of ISO TC272 for forensics, and also ISO i.e. C SC37 for biometrics.

0:29:26.992 --> 0:29:37.952

Harner, Elena N CTR USARMY HQDA DFBA (USA)

We also developed the DoD electronic Biometric Transmission Specification or DODEBTS, and are currently developing a similar spec for.

0:29:38.802 --> 0:29:41.842

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Forensics called the forensic electronic data interchange.

0:29:43.802 --> 0:30:6.402

Harner, Elena N CTR USARMY HQDA DFBA (USA)

We also work to ensure interoperability of forensic and biometric capabilities through conformance testing and we coordinate and collaborate with organizations within the

DoD, interagency partners and Foreign Mission partners to help facilitate standards adoption and implementation and also provide subject matter expertise.

0:30:7.142 --> 0:30:20.102

Harner, Elena N CTR USARMY HQDA DFBA (USA)

So some examples of that we're chairs of the DoD forensics and biometric Standards Working group. And we're also one of the executive Co chairs of the Neem Biometric Subcommittee.

0:30:21.682 --> 0:30:35.42

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And lastly, we submit recommendations for formal DoD adoption of published standards to the DoD and intelligence Community, Joint Enterprise Standards Committee for review and approval.

0:30:36.652 --> 0:30:43.412

Kamran Atri NBAC Co-Chair

Yeah. So there are some awesome news here is that they're not strangers to standards.

0:30:37.192 --> 0:30:37.752

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Next slide.

0:30:43.412 --> 0:30:44.252

Kamran Atri NBAC Co-Chair

This is all they do.

0:30:44.252 --> 0:30:47.652

Kamran Atri NBAC Co-Chair

That's that's all I remember for the past 1520 years.

0:30:48.172 --> 0:30:50.92

Kamran Atri NBAC Co-Chair

You know, working with them on the biometric side.

0:30:50.92 --> 0:30:57.692

Kamran Atri NBAC Co-Chair

So I think it's it's an awesome connection there already a part of neem biometric domain.

0:30:59.242 --> 0:31:2.682

Kamran Atri NBAC Co-Chair

Working with Obam and this will be an awesome addition.

0:31:4.322 --> 0:31:5.202

Kamran Atri NBAC Co-Chair

On the forensic side.

0:31:5.552 --> 0:31:7.72

Kamran Atri NBAC Co-Chair

For them to take another check.

0:31:8.392 --> 0:31:9.192

Kamran Atri NBAC Co-Chair

I'm not, please.

0:31:9.782 --> 0:31:12.302

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Yeah, perfect intro to the next slide.

0:31:12.542 --> 0:31:32.342

Harner, Elena N CTR USARMY HQDA DFBA (USA)

This just shows some of our experience that we have with standards and neem. As I mentioned on the last slide, we have DODEBTS currently on version 4.1 there and this is a standard for exchanging biometric data between DoD systems it.

0:31:32.382 --> 0:31:39.242

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Fully meme conformant, and it's based on the anzenest ITL spec for the exchange of biometric.

0:31:39.352 --> 0:31:40.232

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Information.

0:31:41.722 --> 0:31:48.362

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Our standards Branch Chief Ryan Triplett, is also one of the Co chairs of the Neem Biometrics domain.

0:31:50.82 --> 0:31:58.602

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And we're also members of the Neem Open mill OPS community of interest. We recently joined Nback and Ntech have that listed there.

0:31:58.602 --> 0:32:8.562

Harner, Elena N CTR USARMY HQDA DFBA (USA)

We started calling into those meetings as well, and then we also have the BISCO, which is our biometric interoperability and.

0:32:8.832 --> 0:32:18.112

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Standards Compliance Office, where we test interoperability and conformance of different capabilities against DODEBTS.

0:32:20.402 --> 0:32:21.922

Kamran Atri NBAC Co-Chair

Thank you, Matt. Next slide please.

0:32:20.622 --> 0:32:21.342

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Next slide.

0:32:25.352 --> 0:32:47.752

Harner, Elena N CTR USARMY HQDA DFBA (USA)

All right. So just a little bit about the value that having this forensic subcommittee would add, it would increase interoperability across the US government organizations that exchange forensic information as well as increase the use of common and standard forensic data and provide an information sharing model for the.

0:32:47.752 --> 0:32:52.792

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Forensics community but also promote efficient and consistent data sharing.

0:32:53.522 --> 0:32:55.42

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Between forensics organizations.

0:32:55.472 --> 0:33:16.32

Harner, Elena N CTR USARMY HQDA DFBA (USA)

By maintaining a common vocabulary of forensics attributes, it will broaden accessibility of forensics information to other neeme open subcommittees, and also promote forensic community based agreements on data element names and definitions, as well as code lists.

0:33:16.432 --> 0:33:21.952

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And lastly, for the future, it could also be considered for NATO forensic efforts.

0:33:22.842 --> 0:33:37.762

Kamran Atri NBAC Co-Chair

Yeah. So also point here is that I had no idea when when Nbag started looking at this, that there was, there was such a huge interest on this data structure, but.

0:33:39.882 --> 0:33:40.402

Kamran Atri NBAC Co-Chair

We know, I know.

0:33:40.402 --> 0:33:52.562

Kamran Atri NBAC Co-Chair

It's top heavy from the culture position being the government kind of federal government, but they already the team has already talked about identifying.

0:33:52.712 --> 0:33:57.112

Kamran Atri NBAC Co-Chair

And you said on local partners and we know there's gonna be a lot of those.

0:33:58.602 --> 0:34:0.762

Kamran Atri NBAC Co-Chair

Coming up as well as some other agencies so.

0:34:2.762 --> 0:34:7.842

Kamran Atri NBAC Co-Chair

I fully expect this domain to to be one of the largest.

0:34:9.482 --> 0:34:14.202

Kamran Atri NBAC Co-Chair

Domain Subcommittee within the new Open. Next slide, please.

0:34:18.402 --> 0:34:19.522

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Alright so.

0:34:18.702 --> 0:34:21.702

Kamran Atri NBAC Co-Chair

I know you wanna do this on. I just wanna.

0:34:21.702 --> 0:34:24.262

Kamran Atri NBAC Co-Chair

I just wanna put a a quick disclaimer here.

0:34:24.462 --> 0:34:27.222

Kamran Atri NBAC Co-Chair

This number may swing back and forth.

0:34:27.222 --> 0:34:28.342

Kamran Atri NBAC Co-Chair

We're still working through them.

0:34:28.902 --> 0:34:37.262

Kamran Atri NBAC Co-Chair

We have identified some core structures that we think should be the first for first for forensic to go off the gate.

0:34:37.902 --> 0:34:45.182

Kamran Atri NBAC Co-Chair

It may be a bit of a change of the numbers not that much, but just want to tell you this may not be the final product.

0:34:45.922 --> 0:34:48.42

Kamran Atri NBAC Co-Chair

When we push for the internal release.

0:34:49.282 --> 0:34:51.722

Kamran Atri NBAC Co-Chair

For the subcommittee before the official release.

0:34:53.242 --> 0:34:53.682

Kamran Atri NBAC Co-Chair

Elena, please.

0:34:54.932 --> 0:34:57.772

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Yeah, thanks, Cameron. To add on to that.

0:34:57.772 --> 0:35:12.332

Harner, Elena N CTR USARMY HQDA DFBA (USA)

So Diffa had developed an integrated data Dictionary of forensic attributes and then we came to Camryn and presented that to him. And we've been working through that.

0:35:12.332 --> 0:35:19.292

Harner, Elena N CTR USARMY HQDA DFBA (USA)

That's got about 1300 attributes in total and we're, you know, working through in batches for.

0:35:20.2 --> 0:35:24.402

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Delivery to name. So for this initial delivery, this is what we.

0:35:24.872 --> 0:35:43.952

Harner, Elena N CTR USARMY HQDA DFBA (USA)

You currently have for the first batch that we're working through. Umm, to prepare the attributes and definitions for neem, umm and as Cameron mentioned, umm this will likely change but this is what we currently have so 119 for the initial delivery right now.

0:35:45.482 --> 0:35:55.642

Harner, Elena N CTR USARMY HQDA DFBA (USA)

16 of those are mapped to neem open already, and 103 would be for a new addition. Umm, a new element.

0:35:55.952 --> 0:36:2.432

Harner, Elena N CTR USARMY HQDA DFBA (USA)

In Neem, so back down to the total data elements.

0:36:3.962 --> 0:36:21.722

Harner, Elena N CTR USARMY HQDA DFBA (USA)

There would be about 927 in total. Once we got through all you know deliveries that would be added to a forensics domain. The other 389 have already been mapped to neem. And of those that have already been mapped most of.

0:36:21.722 --> 0:36:26.282

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Those are coming from neem core military operations.

0:36:27.32 --> 0:36:30.72

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Justice and the CBRN domains.

0:36:31.672 --> 0:36:42.952

Harner, Elena N CTR USARMY HQDA DFBA (USA)

And I think yeah, that. And then what Cameron already touched on, you know these with further collaboration and as the domain is established, these numbers will of course change a bit.

0:36:42.952 --> 0:36:45.632

Harner, Elena N CTR USARMY HQDA DFBA (USA)

But I think that's all I had here.

0:36:45.592 --> 0:36:48.352

Kamran Atri NBAC Co-Chair

Thank you, ma'am. So we expect.

0:36:50.162 --> 0:36:55.762

Kamran Atri NBAC Co-Chair

We want to go ahead and position the initial activity, get the Subcommittee lined up.

0:36:55.762 --> 0:37:11.922

Kamran Atri NBAC Co-Chair

Next slide, please. Can the subcommittee lined up and kind of get it organized and

structured and then immediately after we wanna open up the tent for anybody else to stay on local, others who wanna join and kind of work through.

0:37:12.362 --> 0:37:14.442

Kamran Atri NBAC Co-Chair

That's why we are trying to filter the.

0:37:15.602 --> 0:37:16.882

Kamran Atri NBAC Co-Chair

These massive list of attributes.

0:37:18.272 --> 0:37:21.712

Kamran Atri NBAC Co-Chair

The target here is to go after those. We know for a fact.

0:37:23.482 --> 0:37:28.242

Kamran Atri NBAC Co-Chair

That Paul has access to managers, organizers and.

0:37:29.922 --> 0:37:48.722

Kamran Atri NBAC Co-Chair

It's a sure, sure thing. And then some of the other leftovers. As you notice the over the 900 or so are the ones we're gonna work through the subcommittee as well as others in kind of positioning, mapping, harmonization activity, which we should talk a few months.

0:37:49.312 --> 0:37:50.552

Kamran Atri NBAC Co-Chair

For us to go through so.

0:37:52.82 --> 0:38:0.842

Kamran Atri NBAC Co-Chair

I just want you all to be aware that that this is a full collaboration community activity for us to go forward.

0:38:1.2 --> 0:38:8.642

Kamran Atri NBAC Co-Chair

We just think it's important that we initiate the subcommittee as soon as possible, and that's one of the reasons we're bringing this up to your attention today.

0:38:10.282 --> 0:38:16.42

Kamran Atri NBAC Co-Chair

This this essentially is showing you how much work these guys have done as tormentors.

0:38:16.42 --> 0:38:17.882

Kamran Atri NBAC Co-Chair

Amount of work that I've already done.

0:38:19.272 --> 0:38:28.352

Kamran Atri NBAC Co-Chair

The the couple of things that's remaining, one is essentially bringing up to Oasis Pgv Sachin which you're targeting to do that on 29th of May.

0:38:29.842 --> 0:38:32.282

Kamran Atri NBAC Co-Chair

The governance document has already been drafted.

0:38:32.882 --> 0:38:48.322

Kamran Atri NBAC Co-Chair

We are working internally to get that updated so that we could angle in the Co chairs, the the Ombudsman as well as possibly set a local support. So it's going to take a little bit of of activity.

0:38:48.592 --> 0:38:56.472

Kamran Atri NBAC Co-Chair

Yeah, that. And that's kinda what we're working on. Once it's done, we're gonna go ahead and give it to Nemo.

0:38:57.352 --> 0:38:58.872

Kamran Atri NBAC Co-Chair

Excuse me, my apologies.

0:38:58.872 --> 0:39:2.192

Kamran Atri NBAC Co-Chair

There's a type on analytic laboratories on that bullet point.

0:39:2.192 --> 0:39:5.152

Kamran Atri NBAC Co-Chair

It should have been terminated. Next slide please.

0:39:10.712 --> 0:39:11.792

Kamran Atri NBAC Co-Chair

So these are.

0:39:11.792 --> 0:39:15.792

Kamran Atri NBAC Co-Chair

I mean, these are all again activity that we have onboarded so far.

0:39:17.322 --> 0:39:31.562

Kamran Atri NBAC Co-Chair

We identified DoD dev Buzz Ryan triplet as the chair of the organization and then based on the governance document, we'll decide if it needs to be rotated or that it needs to be persistent.

0:39:32.42 --> 0:39:37.722

Kamran Atri NBAC Co-Chair

So that only gonna get worked out. Adam already as we noticed that already identified.

0:39:38.402 --> 0:39:51.442

Kamran Atri NBAC Co-Chair

There's large massive data sets and so we are working with them internally to kind of filter out and kind of position a road map trying to get them through harmonization and mapping activities.

0:39:53.372 --> 0:39:57.652

Kamran Atri NBAC Co-Chair

The rest of the pieces here will be positioned for check Mark.

0:39:59.202 --> 0:39:59.362

Kamran Atri NBAC Co-Chair

Once.

0:40:0.882 --> 0:40:3.42

Kamran Atri NBAC Co-Chair

Once the subcommittee's up and running.

0:40:4.562 --> 0:40:22.722

Kamran Atri NBAC Co-Chair

And then we will quickly be working through the rest of it such as kickoff meetings, you know, identifying how many public hearing they will have and you know, maintaining the roster and so on and so forth for today's purpose. For those of you know, who's online here.

0:40:22.792 --> 0:40:23.512

Kamran Atri NBAC Co-Chair

I'm here today.

0:40:25.82 --> 0:40:27.282

Kamran Atri NBAC Co-Chair

We're trying to push it through and back at this point.

0:40:29.202 --> 0:40:38.562

Kamran Atri NBAC Co-Chair

I'll work with Steven behind the scene to see if we need to send an e-mail out, but essentially we want to put it through the TSC, which is you guys.

0:40:40.242 --> 0:40:50.402

Kamran Atri NBAC Co-Chair

Kind of a voting activity to make sure if there's anyone who has any concern, any issues, anything they want to bring up to bring up to the floor now.

0:40:51.642 --> 0:40:54.562

Kamran Atri NBAC Co-Chair

Else, we intend to move forward with this subcommittee activity.

0:40:55.912 --> 0:40:58.592

Kamran Atri NBAC Co-Chair

And there's another slide, Steven.

0:40:58.592 --> 0:40:59.792

Kamran Atri NBAC Co-Chair

I don't remember, sorry.

0:41:0.432 --> 0:41:3.352

Kamran Atri NBAC Co-Chair

Oh, that's our information. If anybody wants to get a hold of us.

0:41:5.382 --> 0:41:7.262

Kamran Atri NBAC Co-Chair

Are there any questions? Any comments?

0:41:12.872 --> 0:41:13.792

Paul Wormeli

I'd like to add.

0:41:12.872 --> 0:41:14.832

Brad Bolliger (EY)

Questions, yeah.

0:41:13.952 --> 0:41:20.392

Paul Wormeli

I'd like to add a little bit to this discussion, Cameron, and thank you all for this briefing.

0:41:20.992 --> 0:41:28.152

Paul Wormeli

I'm extremely delighted that this is moving forward and I'm, I guess I'm speaking in in total support.

0:41:29.602 --> 0:41:35.602

Paul Wormeli

For the adoption of this work and the creation of this this domain in neem open.

0:41:37.802 --> 0:41:41.922

Paul Wormeli

I'm I think I agree exactly with you, Cameron, that this could be the largest.

0:41:42.352 --> 0:41:49.952

Paul Wormeli

Domain and all of them open eventually because there's so many people involved on a national scale involved in forensics.

0:41:51.482 --> 0:42:10.882

Paul Wormeli

And I appreciate the fact that you've already mentioned that there's some consideration beginning to involve state and local folks in this. I think it's critically important that as we move forward with this, that we make it clear that this is in the context of NE.

0:42:10.882 --> 0:42:11.562

Paul Wormeli

Open using the.

0:42:11.872 --> 0:42:14.352

Paul Wormeli

The end of the name is.

0:42:14.352 --> 0:42:19.392

Paul Wormeli

This is a national domain, not just a federal domain and having some.

0:42:20.882 --> 0:42:24.322

Paul Wormeli

Close involvement in participation of the state and local forensic world.

0:42:26.42 --> 0:42:29.82

Paul Wormeli

Would be extremely valuable and truly making this a national effort.

0:42:29.562 --> 0:42:41.2

Paul Wormeli

I know that there are quite a few state police crime labs, for example, that would be delighted to get involved in this and be a participant in developing the standards and.

0:42:41.352 --> 0:42:43.432

Paul Wormeli

And moving this whole domain forward.

0:42:45.122 --> 0:42:54.442

Paul Wormeli

I would suggest to you that the I just institute has close connections with the state crime labs in many many States and including a membership.

0:42:56.362 --> 0:43:10.682

Paul Wormeli

And the Argus Institute and I believe that I just institute staff would be more than happy to help identify some of the key players at the state and local world that could participate in the work of this domain and and help.

0:43:11.192 --> 0:43:18.32

Paul Wormeli

Flesh out the data content as well as how this can serve the entire national community.

0:43:18.32 --> 0:43:21.232

Paul Wormeli

I think it's important that we do that as soon as we can.

0:43:23.462 --> 0:43:26.262

Kamran Atri NBAC Co-Chair

Yep. Thank you, Paul. Point taken.

0:43:26.262 --> 0:43:34.542

Kamran Atri NBAC Co-Chair

We are considering that, as I said, I just want to make sure we get the flag down so we can get the subcommittee started and then once the subcommittee starts.

0:43:36.42 --> 0:43:41.322

Kamran Atri NBAC Co-Chair

We'll open up the tent for others to join and work through the rest of the pieces, so I appreciate the feedback.

0:43:41.322 --> 0:43:41.722

Kamran Atri NBAC Co-Chair

Thank you.

0:43:43.272 --> 0:43:46.112

Kamran Atri NBAC Co-Chair

Any other comments questions.

0:43:47.562 --> 0:43:48.762

Kamran Atri NBAC Co-Chair

For me or the forensic guys?

0:43:52.712 --> 0:43:54.632

Kamran Atri NBAC Co-Chair

Nope, all right.

0:43:56.802 --> 0:43:58.762

Kamran Atri NBAC Co-Chair

As I think Steven, it's called fuzzy consent.

0:43:59.242 --> 0:44:1.82

Kamran Atri NBAC Co-Chair

I can't remember what the word was used.

0:44:3.2 --> 0:44:3.42

Kamran Atri NBAC Co-Chair

I.

0:44:3.742 --> 0:44:4.902

Brad Bolliger (EY)

Yeah, I remember that comment.

0:44:3.882 --> 0:44:3.962

Kamran Atri NBAC Co-Chair

I I.

0:44:4.902 --> 0:44:5.782

Brad Bolliger (EY)

That sounds right.

0:44:7.242 --> 0:44:7.402

Kamran Atri NBAC Co-Chair

OK.

0:44:8.402 --> 0:44:20.482

Kamran Atri NBAC Co-Chair

So we're gonna move forward to the subcommittee unless anybody has any questions.

As I said, I'll I'll work with Steven on the side to see if you need to sign another communication, but the the slide deck is available.

0:44:20.482 --> 0:44:28.202

Kamran Atri NBAC Co-Chair

I just need to fix that typo that you just saw, and then we'll that. That's gonna be all in the repository for you all to access.

0:44:29.642 --> 0:44:33.82

Kamran Atri NBAC Co-Chair

That's that's the end of our briefing. Steven, back to you.

0:44:34.692 --> 0:44:35.12

Sullivan, Stephen M CTR JS J6 (USA)

OK.

0:44:35.12 --> 0:44:53.532

Sullivan, Stephen M CTR JS J6 (USA)

Thank you, Cameron and thank thank you for this brief and I'll talk to Cameron and what we'll do is we'll put out an e-mail notification to the end back at large and we're gonna ask for lazy consensus, which essentially means.

0:44:54.922 --> 0:44:56.442

Sullivan, Stephen M CTR JS J6 (USA)

Unless you have an issue.

0:44:58.162 --> 0:45:0.202

Sullivan, Stephen M CTR JS J6 (USA)

And a reason why we should not proceed.

0:45:0.482 --> 0:45:3.282

Sullivan, Stephen M CTR JS J6 (USA)

We'll assume that the motion to.

0:45:3.872 --> 0:45:16.592

Sullivan, Stephen M CTR JS J6 (USA)

Have this become a new domain is carried and you should see something from us next week and our intent, as Cameron mentioned, is to take this before the project governing Board, which is the.

0:45:18.282 --> 0:45:23.122

Sullivan, Stephen M CTR JS J6 (USA)

The Governance Committee for name Open overall and essentially.

0:45:24.722 --> 0:45:33.602

Sullivan, Stephen M CTR JS J6 (USA)

Once approved by the N Bacc, we simply just provide a presentation to the PGB and it's a notification.

0:45:33.992 --> 0:45:35.992

Sullivan, Stephen M CTR JS J6 (USA)

Process on an approval process.

0:45:35.992 --> 0:45:38.152

Sullivan, Stephen M CTR JS J6 (USA)

So once again, thank you.

0:45:39.32 --> 0:45:42.632

Sullivan, Stephen M CTR JS J6 (USA)

Next on the agenda is I have.

0:45:44.122 --> 0:45:48.722

Sullivan, Stephen M CTR JS J6 (USA)

An update from Gantac and Brad, I think you're the.

0:45:50.152 --> 0:45:55.472

Sullivan, Stephen M CTR JS J6 (USA)

You're the individual representative from the antac that I that I see today.

0:45:54.242 --> 0:45:54.882

Brad Bolliger (EY)

That's right.

0:45:55.842 --> 0:45:56.482

Brad Bolliger (EY)

That's right.

0:45:56.482 --> 0:45:57.362

Brad Bolliger (EY)

Yeah. Thank you.

0:45:57.362 --> 0:46:14.82

Brad Bolliger (EY)

I'm sorry I don't have any slides, but if you want to go back to your other deck and

move forward at your discretion, up to you, I will say from the NTAC perspective, I'm looking forward to seeing how those additional stakeholders provide updates and and enrich the model.

0:46:14.162 --> 0:46:18.2

Brad Bolliger (EY)

A model updates that come out of that forensics subcommitt.

0:46:19.122 --> 0:46:20.242

Brad Bolliger (EY)

EE from the NTAC updates.

0:46:20.242 --> 0:46:23.722

Brad Bolliger (EY)

I I will say also, you probably heard most of them already.

0:46:23.722 --> 0:46:25.602

Brad Bolliger (EY)

Steven's updates recapping last.

0:46:27.32 --> 0:46:29.32

Brad Bolliger (EY)

Meeting really productive time.

0:46:29.152 --> 0:46:33.472

Brad Bolliger (EY)

One of the key focuses for the NTAC coming out of those conversations?

0:46:34.272 --> 0:46:41.192

Brad Bolliger (EY)

You'll see right up here on the screen are these two activities being approved by the PGB vote.

0:46:41.192 --> 0:46:42.912

Brad Bolliger (EY)

So thank you all for those who voted.

0:46:44.682 --> 0:46:57.122

Brad Bolliger (EY)

The the model we we feel very good about and and the NDR moving from a draft to a

project specification is another key activity for us. And so some of the objectives of the NTA.

0:46:57.512 --> 0:46:59.32

Brad Bolliger (EY)

Coming ahead for the next.

0:47:0.562 --> 0:47:3.82

Brad Bolliger (EY)

Between now and this next conversation, I'll be brief.

0:47:4.42 --> 0:47:18.402

Brad Bolliger (EY)

We especially need to make sure that the CMF tool is up to date, as there are some dependencies, new naming and design rules that will have to be drafted from scratch to accommodate some of the new formats that are available.

0:47:20.42 --> 0:47:28.562

Brad Bolliger (EY)

And then we also will need to provide some updates to message specification guidance in response to these two new components being.

0:47:28.992 --> 0:47:50.872

Brad Bolliger (EY)

Proved, especially as Jason messages are new in this to this initiative to some degree XML design rules for example are are better specified. But especially recommending the new structure an appropriate structure for message catalog and finalizing naming. And once and for all.

0:47:52.402 --> 0:47:59.42

Brad Bolliger (EY)

Further, the teams are also working on training as well as some of those tools which were mentioned before as well.

0:47:59.82 --> 0:48:2.882

Brad Bolliger (EY)

There's activity going on to update training and alerting management system.

0:48:3.762 --> 0:48:9.642

Brad Bolliger (EY)

To really round out the portfolio solutions available to meet initiatives.

0:48:14.462 --> 0:48:16.262

Brad Bolliger (EY)

We are also.

0:48:17.982 --> 0:48:25.942

Brad Bolliger (EY)

Hosting measures for justice who will be joining us? I want to say May 13th is the current plan.

0:48:26.342 --> 0:48:39.902

Brad Bolliger (EY)

Measures for justice is a group for those who aren't familiar, who are working on data and analytics, and especially integrating data across systems into a common pool for researchers, primarily across the country.

0:48:39.902 --> 0:48:42.142

Brad Bolliger (EY)

I think they were presence in all a few dozen states.

0:48:42.842 --> 0:48:47.882

Brad Bolliger (EY)

To really help explain not just what Data's available and how activities are taken in the justice.

0:48:48.752 --> 0:48:50.512

Brad Bolliger (EY)

Process, but also to.

0:48:51.962 --> 0:48:53.482

Brad Bolliger (EY)

Insights of that operations.

0:48:55.122 --> 0:49:11.362

Brad Bolliger (EY)

They are gonna present to us some of their objectives and we're gonna discuss how

neem can help enable measures for Justice's goals, as well as how measures for justice can help the attack and end back to develop model components that are useful for describing data quality if.

0:49:11.362 --> 0:49:14.882

Brad Bolliger (EY)

That's an activity we're all very excited about as well, not just.

0:49:16.762 --> 0:49:19.762

Brad Bolliger (EY)

Attribution metadata that describes data quality.

0:49:20.72 --> 0:49:24.792

Brad Bolliger (EY)

The Providence and maybe licensing or.

0:49:27.802 --> 0:49:48.642

Brad Bolliger (EY)

Certification of data who originated it? I think that's all that we have from an endeavor perspective. In addition to the work group which is reviewing not just the governance model but also roles and responsibilities for that lead developer as was discussed, which of course is a critical concern.

0:49:48.842 --> 0:49:49.762

Brad Bolliger (EY)

For the N tech.

0:49:50.692 --> 0:49:55.772

Brad Bolliger (EY)

Oh, the final piece I wanted to mention was also on a previous slide, but just so that it is called out.

0:49:57.242 --> 0:50:4.162

Brad Bolliger (EY)

The 6.0 presentation we will be hosting a webinar, maybe the I Just Institute is hosting that for us as well.

0:50:4.242 --> 0:50:18.602

Brad Bolliger (EY)

May 22nd though to reveal Model 6.0 updates to the naming and design rules. Some of the tools highlight some new use cases and best practices in the mean, so be sure to attend that and.

0:50:19.592 --> 0:50:20.672

Brad Bolliger (EY)

Give us your feedback.

0:50:21.312 --> 0:50:24.952

Brad Bolliger (EY)

Any comments or questions for me or the end tackle?

0:50:32.422 --> 0:50:34.142

Brad Bolliger (EY)

Over back to you, Stevie.

0:50:35.482 --> 0:50:36.162

Sullivan, Stephen M CTR JS J6 (USA)

Thank you, Brad.

0:50:37.712 --> 0:50:42.992

Sullivan, Stephen M CTR JS J6 (USA)

Next, I'll open the floor to Allie to talk to us a little bit about.

0:50:44.712 --> 0:50:49.192

Sullivan, Stephen M CTR JS J6 (USA)

The Communications and Outreach Subcommittee and their activities.

0:50:50.992 --> 0:50:51.112

Sullivan, Stephen M CTR JS J6 (USA)

Paul.

0:50:50.992 --> 0:50:51.992

Paul Wormeli

Thank you, Steven.

0:50:51.992 --> 0:50:57.312

Paul Wormeli

We've already talked about the activities of communications and outreach has been up to.

0:50:58.872 --> 0:51:8.352

Paul Wormeli

We're very pleased to have been involved in helping plan the webinar, which is really a combination of end back and intact folks.

0:51:10.72 --> 0:51:19.912

Paul Wormeli

Describing to hope, hopefully a large audience about the wonderful new features and functions of version six and the associated tools that are coming out.

0:51:20.662 --> 0:51:21.622

Paul Wormeli

We're also.

0:51:23.832 --> 0:51:42.872

Paul Wormeli

Actively involved with the talking with a couple of new emerging domains, one in particular that's interesting is the Association of Government accountants who are interested in seeing how they can use neem to deal more with financial measures, in particular the metrics of government agencies and with respect to.

0:51:42.872 --> 0:51:49.952

Paul Wormeli

Financial terms and there'll be attending the the webinar and also talking with their members about how they might.

0:51:50.382 --> 0:52:0.782

Paul Wormeli

Find it interesting to be a part of name up and they have 14,000 members, so that's a substantial audience for me open.

0:52:1.542 --> 0:52:16.862

Paul Wormeli

We've also been talking with a couple of private industry people who are interested in taking advantage of name open with respect to property information and and maybe adding taxation information.

0:52:17.632 --> 0:52:19.152

Paul Wormeli

So those things are ongoing.

0:52:20.462 --> 0:52:21.62

Paul Wormeli

Steven.

0:52:22.832 --> 0:52:27.432

Paul Wormeli

Told you I'm making a presentation about name open to the collected.

0:52:28.992 --> 0:52:30.312

Paul Wormeli

County CIOs in California.

0:52:30.312 --> 0:52:47.352

Paul Wormeli

They, at their annual meeting of all the CIOs and I have a good slide on their agenda to talk about name open and how it already effects them in counties, but also how they can be further involved in in the development of nevope.

0:52:47.352 --> 0:52:48.432

Paul Wormeli

And so it's exciting.

0:52:49.102 --> 0:52:49.902

Paul Wormeli

Opportunity.

0:52:51.352 --> 0:52:59.592

Paul Wormeli

And we're continuing to look at other opportunities to make presentations about name open at the executive level in particular.

0:53:1.592 --> 0:53:18.192

Paul Wormeli

We're actively looking to to get the communications and Outreach Committee more

activated, and that means expanding the membership. We're going to try to rejuvenate the membership and if any of you are interested, I would appreciate hearing.

0:53:18.462 --> 0:53:20.942

Paul Wormeli

It can write Steven a note or me.

0:53:22.512 --> 0:53:23.312

Paul Wormeli

We want to.

0:53:23.312 --> 0:53:35.512

Paul Wormeli

We want to try to get representation from every domain in this outreach committee because there's a lot of people that we need to tell about, not only the new release, but our future plans and help develop those future plans so.

0:53:37.192 --> 0:53:46.392

Paul Wormeli

We're going to be working on that in the in the foreseeable future. We're also going to be working with with Steven and Catherine about planning the.

0:53:48.32 --> 0:53:48.912

Paul Wormeli

The big reveal.

0:53:49.222 --> 0:53:52.902

Paul Wormeli

In the fall at the National Press Club, about name open.

0:53:52.902 --> 0:53:58.702

Paul Wormeli

So that's kind of a fast summary of what's happening in communications and outreach.

0:54:1.632 --> 0:54:2.472

Paul Wormeli

Thank you, Steven.

0:54:2.22 --> 0:54:2.662

Sullivan, Stephen M CTR JS J6 (USA)

Thank you, Bob.

0:54:5.332 --> 0:54:8.572

Sullivan, Stephen M CTR JS J6 (USA)

Want to just bring up one more slide for you? Just so that.

0:54:10.472 --> 0:54:10.752

Sullivan, Stephen M CTR JS J6 (USA)

You can.

0:54:11.782 --> 0:54:13.822

Sullivan, Stephen M CTR JS J6 (USA)

Up at the top of this slide shows.

0:54:15.512 --> 0:54:19.912

Sullivan, Stephen M CTR JS J6 (USA)

Our current sponsors and then as we spoke to a little earlier, we identified.

0:54:21.632 --> 0:54:23.152

Sullivan, Stephen M CTR JS J6 (USA)

A large number of them that we think.

0:54:24.832 --> 0:54:31.672

Sullivan, Stephen M CTR JS J6 (USA)

Have high probability of joining neem open in the near future and those are listed here.

0:54:31.712 --> 0:54:34.672

Sullivan, Stephen M CTR JS J6 (USA)

Each of these were signed essentially.

0:54:36.392 --> 0:54:39.832

Sullivan, Stephen M CTR JS J6 (USA)

After manager will be working working those contacts in the future.

0:54:41.512 --> 0:54:43.672

Sullivan, Stephen M CTR JS J6 (USA)

And just recently, we.

0:54:45.312 --> 0:54:46.632

Sullivan, Stephen M CTR JS J6 (USA)

Had a new sponsor.

0:54:48.432 --> 0:54:50.952

Sullivan, Stephen M CTR JS J6 (USA)

APN and Mr. James Herbert.

0:54:51.352 --> 0:54:58.312

Sullivan, Stephen M CTR JS J6 (USA)

And that was on boarded just recently signed their entity license agreement and James.

0:55:0.72 --> 0:55:7.632

Sullivan, Stephen M CTR JS J6 (USA)

Voted this week on the model version 6.0, so we wanna welcome James and his group.

0:55:9.102 --> 0:55:13.822

Sullivan, Stephen M CTR JS J6 (USA)

The name and the project government. What I like to do now is.

0:55:15.792 --> 0:55:20.352

Sullivan, Stephen M CTR JS J6 (USA)

Ask if anyone from the community in the audience.

0:55:21.582 --> 0:55:25.982

Sullivan, Stephen M CTR JS J6 (USA)

Has anything they'd like to provide to the group, so the floor is open.

0:55:28.242 --> 0:55:29.242

Kamran Atri NBAC Co-Chair

I just wanna Stephen.

0:55:29.242 --> 0:55:32.922

Kamran Atri NBAC Co-Chair

I'll send you the updated slide to use that please.

0:55:36.902 --> 0:55:42.342

Sullivan, Stephen M CTR JS J6 (USA)

And all these slides will be available to you at least by Monday in the.

0:55:43.872 --> 0:55:45.672

Sullivan, Stephen M CTR JS J6 (USA)

End back admin repo.

0:55:47.432 --> 0:55:54.872

Sullivan, Stephen M CTR JS J6 (USA)

That all of you, and any anyone, not just in the community, but anyone has access to.

But Cameron, I'll get you those slides.

0:55:55.552 --> 0:55:56.152

Kamran Atri NBAC Co-Chair

I'm just, Sir.

0:55:59.492 --> 0:56:2.972

Kamran Atri NBAC Co-Chair

Any update from anyone, anything you want to bring to the floor?

0:56:6.752 --> 0:56:8.472

Kamran Atri NBAC Co-Chair

Going once, going twice.

0:56:10.312 --> 0:56:10.912

Kamran Atri NBAC Co-Chair

OK.

0:56:12.312 --> 0:56:13.32

Kamran Atri NBAC Co-Chair

Appreciate your time.

0:56:13.32 --> 0:56:14.792

Kamran Atri NBAC Co-Chair

I'm gonna pass it on to Thomas.

0:56:16.552 --> 0:56:17.192

Kamran Atri NBAC Co-Chair

For closing remar.

0:56:18.632 --> 0:56:31.72

Thomas Krul

All right. So just to reiterate today's meeting model a version PS02, you can take a look at it on the on the name Open Noises Project page or the GitHub.

0:56:32.182 --> 0:56:34.182

Thomas Krul

The approved and.

0:56:35.992 --> 0:56:43.272

Thomas Krul

Don't forget that we have an upcoming webinar on May 22nd and the next PGP meeting is the 29th of May.

0:56:45.32 --> 0:56:56.552

Thomas Krul

And if you can, try to plan to be in Washington for the 8th of October for the reveal, the National Press Club. And I think that pretty much covers it, doesn't it?

0:56:56.832 --> 0:56:57.752

Thomas Krul

The big news?

0:56:58.192 --> 0:57:2.232

Thomas Krul

Oh, and of course, all the wonderful things we talked about today, which in great detail.

0:57:3.492 --> 0:57:11.12

Thomas Krul

And I hope that everybody has a great spring and that they are enjoying the new, improved weather after that long, long winter.

0:57:3.802 --> 0:57:3.962

Kamran Atri NBAC Co-Chair

Stop.

0:57:11.492 --> 0:57:22.252

Thomas Krul

And I just kind of I got off about of a a month long of pneumonia. So I'm still recovering from that, but I hope everybody's doing well and that we think next month and the next and back meeting. Cheers.

0:57:22.702 --> 0:57:23.622

Kamran Atri NBAC Co-Chair

Have you found this?

0:57:25.112 --> 0:57:25.472

Kamran Atri NBAC Co-Chair

Thank you everyone.

0:57:25.472 --> 0:57:26.72

Kamran Atri NBAC Co-Chair

Have a good day. Bye.

0:57:27.12 --> 0:57:27.692

Brad Bolliger (EY)

Thanks Cameron.

0:57:27.692 --> 0:57:28.252

Brad Bolliger (EY)

Thanks y'all.

0:57:28.462 --> 0:57:29.222

Harner, Elena N CTR USARMY HQDA DFBA (USA)

Thank you.

0:57:28.622 --> 0:57:28.742

Paul Wormeli

Bye.

0:57:35.152 --> 0:57:37.472

JAMES HARRIS, CBP, OIT

Good to listen in to all you data people.

0:57:37.472 --> 0:57:43.952

JAMES HARRIS, CBP, OIT

Again, this is Jim Harris from CBP trying to get us rejuvenated and reinterested here.

0:57:44.552 --> 0:57:47.72

JAMES HARRIS, CBP, OIT

I never lost interest myself.

0:57:48.552 --> 0:57:49.352

JAMES HARRIS, CBP, OIT

But just catch you later.
