CONTRIBUTIONS VIA MAILING LIST – GENERAL INFO

- An alternative process for occasional content contributors who are not significantly engaged with the project
 - Situations where suggestions or requests come from Community of Interest people familiar with NIEM, but who are not as involved in the day-to-day work of the project and are not likely to take the extra time to work through the logistics of the CLAs.
- Modeled after the -comment@ mailing lists used for non-member feedback to OASIS Technical Committees
- Not intended as an alternative to signing CLAs
 - CLAs remain the prerequisite for regular project contributors
- The list process simply covers a unique contribution, it does not suffice or bestow an I-CLA to the contributor should they later want to make a pull request
